## Safety Tips / Announcements

The Loudoun County Sheriff's Office has partnered with VirginiaDMV to promote "Roll with the Proper Gear" campaign to inform the community of the importance of motorcycle safety.

The use of proper riding gear can reduce crashes by increasing a rider's visibility to other drivers and reducing the severity of injuries if involved in a crash.

According to the Virginia Department of Motor Vehicles, three factors stand out when looking at the fatal motorcycle crash data: untrained motorcycle riders, speeding, and riding on non-interstate roadways. In 2022, 78% of motorcycle fatalities were primarily due to untrained motorcycle riders; 54% were primarily due to speeding, and 86% were primarily due to crashes on non-interstate roadways. These can be avoided by taking motorcycle operator training, reducing excessive speeding, and remaining alert when driving on non-interstate roads.

Throughout this partnership, we can help reduce crashes, minimize injuries, and save lives.
